

BST-968

High Quality Factory Direct 2 IN 1 Lead-free Solder Rework Station Hot Air Gun With Soldering Iron

Switchboard

Rated voltage:	AC 220V±10% 50Hz
Total Power:	500W±10% (Max)
Work Environment:	0~40°C Relative humidity<80%
Storage Temperature:	-20~80°C Relative humidity<80%

Hot air gun parts

Operating Voltage:	AC 220V±10% 50Hz
Output Power:	450W±10%
Temperature Range:	100°C~480°C
Gas type:	Pump air
Gas flow:	28L/min(Max)
Temperature stability:	±2°C (Static state)
Setting mode:	Knob
Display:	LED digital display
Temperature lock mode:	Knob
Noise:	Less than 45dB
Nozzle specifications:	Diameters 5mm 8mm 10mm
Heating wire:	High-power heating wire

Solder Equipment

Operating Voltage:	AC 26V±10% 50Hz
Output Power:	50W±10%
Temperature Range:	200°C~480°C
Temperature stability:	±2°C (Static state)
Setting mode:	Knob
Display:	LED digital display
Temperature lock mode:	Knob
Tip-to-ground impedance:	<2Ω
Tip-to-ground voltage:	<2mV
Tip:	BST900-M-T-I
Heater:	Four core ceramic heater
Smoking suction:	600mmhg

Packing specifications

Body weight:	5.3KG
The box size:	33*27*20.5CM
Packing size:	56.5cm*34cm*60.5CM
The number of packing:	6 units
A carton weight:	32.8KG
Fitting:	A smoking soldering iron; an iron stand; 4 nozzles; an air gun rack; a manual

BST-968

High Quality Factory Direct 2 IN 1 Lead-free Solder Rework Station Hot Air Gun With Soldering Iron

Description

- Model:** BST-968 **Weight:** 5.3kg
- Name:** Triple free hot air gun + soldering station + Smoking System
- Features1** high-power,rapid heating,accurate and stable temperature
- Features2** The airflow is adjustable,the wind is heavy but soft
- Features3** Adopt sensor close loop,microcomputer control the temperature,LED display
- Features4** The solder iron heat rapidly, and can be back to temperature quickly,which is good for lead-free soldering
